SUMMARY

Web architect for 5 years and indie game developer with 5+ years of experience. I have shipped game jam titles, published postmortems, and I bring full-stack engineering, game design, and business strategy to every project. I am seeking a technical design or production role where craft and systems thinking intersect.

WORK EXPERIENCE

Freelance Web Developer & Marketer, various
December 2021 - Present
- Consulted with multiple indie and small teams on crafting their websites or creating marketing campaigns.
- Implemented analytics and authored developer documentation for ongoing use.

Freelance Game Developer, Self as Twisted Crystal Games
November 2020 - Present
- Designed and released original tabletop RPGs and journaling games, spanning game jams and independently motivated projects.
- Publish development postmortems on projects on my Ko-Fi, with a monthly summary dev journal, focusing on my growth as a developer.
- Founded and organized Street Grimoire Jam annually on itch.io, a community game jam focused on modern-day fantasy game design

Web Architect, Indiana State University
October 2021 - March 2026
- Maintained a 1,000+ page web presence as the primary in-house developer on a lean team, serving as the central communication link across campus partners, governance, and external stakeholders.
- Led the GA4 migration project within the timeframe of a single year, by myself.

Instructor, Indiana State University
August 2023 - March 2026
- Taught various CS topics to Undergraduates and Graduates, including Basic Web Programming, Backend Web Development, and Linux Administration.

Game Projects

Dubious Destinies, Tabletop Role-Playing System
Submission to Souls-Lite TTRPG Jam (13 Entries), January 2025
A system where mechanics tell the character's story, an unedited submission.

A Web Of Novels, Journaling Game
Submission to 36-Word RPG Jam (353 Entries), January 2025
A journaling game that uses the books around you to supply the prompts.

NovArchaic, Tabletop Role-Playing System
In Active Development | Adventure Modules forthcoming
A traditional modern-day science fantasy tabletop role-playing system playtest.
